IMPORTANT SAFETY INSTRUCTIONS

WARNING**Read all instructions before assembling**

- On receiving your structure, please carefully check you have all parts. Please do not wait until the day you intend to use the structure to then find you have missing or damaged parts. This will allow us time to provide you with any replacement components before use.
- Read these instructions carefully and familiarise yourself with the procedure before assembling the structure.
- Ensure you have enough space to lay out all the parts before assembly.
- Take all the fittings out of the packaging and separate them into groups.
- Check you have all parts and familiarise yourself with each part before proceeding.
- Assemble with at least 2 people.
- Please keep children away when assembling and please keep children under direct supervision of an adult when using.
- Always use the igloo with the anchoring support provided, pegs for soft surfaces such as grass, and the anchoring brackets for solid surfaces such as wood. We do also offer, as optional extras, sand weights and water weights which can be used across all surface types, please contact us for details.
- If you intend to leave outside for long periods, it is recommended to use the anchoring brackets provided.
- Do not repack until completely dry.
- It is highly advisable to take down the igloo in weather conditions involving strong windy conditions.

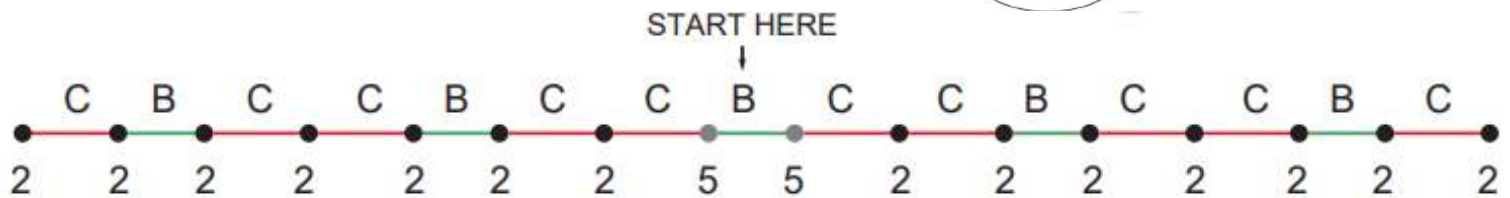

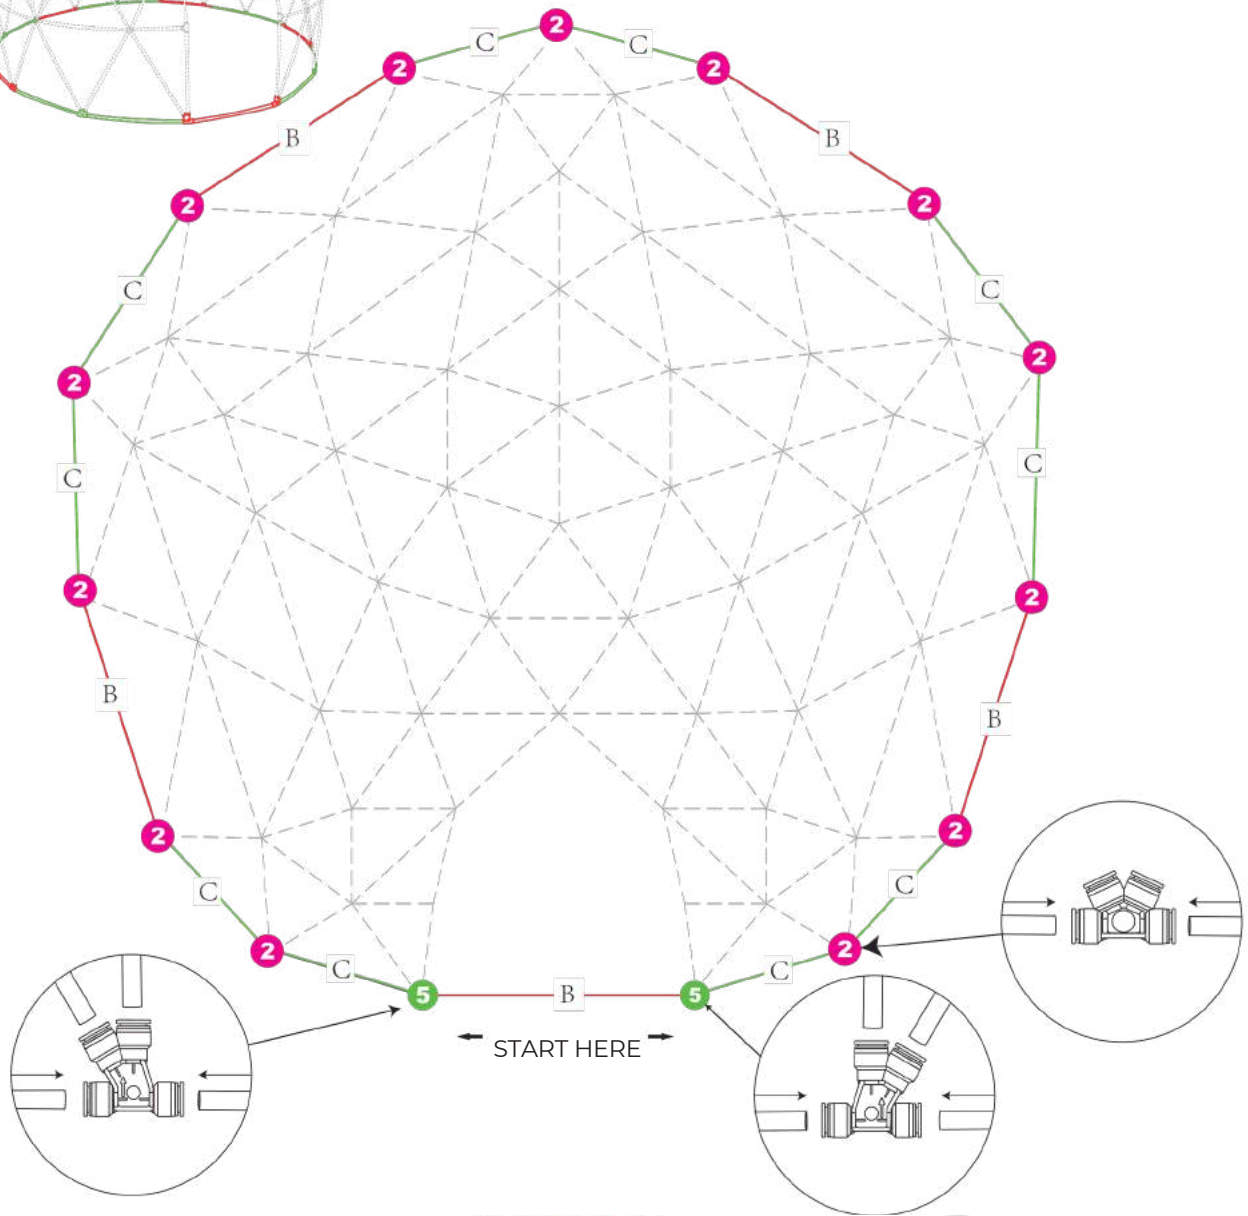

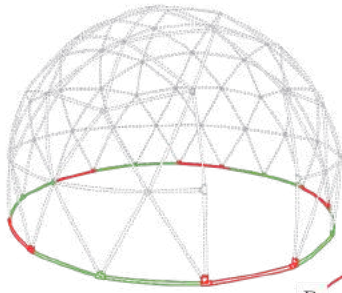

FIRE PRECAUTIONS

- Do not place near lights, fireplaces, gas or electric heaters, candles, radiators, or any other sources of heat, fire or flammable liquids.
- We recommend caution and common sense when in use.
- Do not use naked flames in or around the structure. We recommend you do not smoke while inside the structure.
- Please keep all exits clear and unobstructed.
- This structure features a fabric cover that is not flame retardant.
- This structure can burn.
